Reports from Matanzas, Cardenas, Isabela de Sagua, and Caibarien.

MATANZAS, CUBA, *February 26, 1902.*

SIR: Through the chief quarantine officer for the island of Cuba, I have the honor to submit herewith the following sanitary report of the quarantine district under my command, for the week ended February 22, 1902:

Matanzas.—Twenty-one deaths occurred in the city of Matanzas during the period covered by this report, showing a mortality of 24.19 per 1,000. The principal causes of death were as follows: Tuberculosis, 3; meningitis, 2; enteritis, 2; carcinoma, 2; myelitis, 1; diphtheria, 1; congenital debility, 1; broncho-pneumonia, 1; gastro enteritis, 1; nephritis, 1; bronchitis, 1; heart disease, 1; other causes, 4. Three cases of diphtheria were reported during the week. Six vessels arrived during the week; 3 of these were inspected and passed and 3 passed without inspection; 7 bills of health were issued to vessels leaving this port.

Cardenas.—Acting Asst. Surg. Enrique Saez reports that 8 deaths occurred in Cardenas during the week of the following causes: Tuberculosis, 2; hepatitis, 1; enteritis, 1; arterio-sclerosis, 1; cancer, 1; other causes, 2 No case of infectious or contagious character was reported. The death rate during the week was 16.80 per 1,000. Fourteen vessels arrived during the week; 2 of these were inspected and passed and 12
